OUR PRESIDENT Fay,

A great BIG Thank you to Dennis and Bonnie for organising such a fun filled weekend at Lake Dyer. The venue was superb along with the company of those who joined us.

We would like to say welcome to Arlene and Ted, Lyndell and Brian, Margaret and Barry and Ross and Sue, our new members.

Please pop the 9th November in your diaries for lunch, followed by an afternoon of Bare Foot bowls at The Capalaba Bowls Club. Everyone is welcome. Feel free to bring family and friends. Thank you Bill for organising this for us, our first get together outside the rallies. Check all the details later in the newsletter.

Our next rally at Pomona is shaping up to be a lot of fun so don't miss it. The theme of the rally is Melbourne Cup Celebrations Birdsville style. Bill, our esteemed editor is detailing it more for your information. Hope to see you all there.

We would love your feedback on the rallies and would appreciate any ideas you may have. The more I get to know our members, the more I realise there is a lot of talent in varying areas. Please share it with us so we can share with everyone else. It will help the club to grow and be more interesting for all.

For those who have not been well, our thoughts are with you to get well soon. We miss you.

See you all at the bare foot bowls. Fay

One of the best.

HINTS AND TIPS FOR OPERATING YOUR ROLL OUT AWNING.

Three most likely sources of awning damage:

WIND Possibly number one cause of awning damage. The surface area is approximately 110 square feet. The pressure that can build up under a 13' or 14' awning is capable of powering a yacht that may well win the "America Cup"

RAIN. Water weighs approx. 1kg/lt and if allowed to pool can easily make 15lt the equivalent of a small child.

COMMON SENSE. Never attempt to roll out your awning in blustery or windy conditions.

Never force any part that does not move freely.

Always rope the corners, install Anti Flap Kit and curved roof Rafters.

In the event of rain lower one side so allowing water to run off.

Never wash your awning with harsh chemicals.

Never allow your awning to slam back when rolling up as it damages the locking mechanism.

Never move your caravan with the awning out.

Step 1 RELEASE TRAVEL LOCKS.

Step 2 RELEASE THE TOP SWAY ARM LOCK.

Step 3 FLIP THE MECHANISM LEVER TO ROLL OUT OR OPEN.

Step 4 FULLY ROLL OUT AWNING.

Step 5 EXTEND TOP SWAY ARM.

Step 6 EXTEND THE OUTER ARMS OF THE AWNING FRAMESET.

Step 7 INSTALL THE AWNING LONG WALL.

Step 8 RETURN ROLLER TO THE 3 O'CLOCK POSITION.

Step 9 INSTALL YOUR ANTI FLAP KIT.

Step 10 INSTALL CURVED ROOF RAFTERS

Step 11 ATTACH WIND SKIRT.

Step 12 ATTACH END WALLS OF ANNEXE.

Step 13 INSTALL CAMPING MAT OR FLOOR COVERINGS.

Step 14 ROPE THE CORNERS OF YOUR AWNING DOWN.

Step 15 PEG ANNEXE DOWN.

MAYBE HAVE A BEER OR COFFEE.
