"Stork Talk"

"Birthday Party 'Two"
President Report.

How the time flies. Once again it’s annual meeting time. As the club has grown steadily over the past 12 months so have the skills that can be utilised in our committee. It is very pleasing to see so many members agree to be part of the hard working team who work tirelessly behind the scenes to make each and every rally fun and friendly. All of the nominees are more than capable of taking on the tasks they will be responsible for. Over the last couple of rallies I spent some time encouraging members to step forward so our club could benefit from their expertise. Some were hesitant to start with, but I’m sure you would all agree if we all sit back and leave the work to the same people every year the club will soon become stale.

The Redcliffe rally will be the last one organised by the very clever, retiring Activities co-ordinators, Winton and Robyn and I can see they want to go out with a bang. There will be lots of fun to be had with a Bee Gees weekend. Although these brothers started entertaining in the late 50’s, their main contribution to music was in the 70’s so lets see who can come up with a great 70’s outfit. Should be a great night with many Bee Gee hits and a retro dinner party with all the trimmings. The catering sub-committee is working hard to provide this and the cost to our members will be only $10 a head.

I look forward to seeing everyone at Redcliffe and in the meantime please keep well. For those who are under the weather at the moment please get well soon. Love, Fay

One would like to think that our Rally memories are pleasant, entertaining, enjoyable & learning, but I am sad to say that early Saturday morning “Banger” passed on.

Our condolence to Glenys & Don at the lost of their much loved Banger to which we charged & raised our glasses at 7 10pm Saturday in his honour.

May he rest in peace along side his much love friend “Mash”

With respect to Glenys Don & Milo.

**Saturday’s walk.**

As a child growing up in Ipswich I spent many a happy weekend attending country shows with my father who was a poultry fancier and a highly rated judge of caged birds and poultry. We would often spend Sundays driving the local areas. One of our favourite places to go was Lowood. Ladies were not allowed in the main bars of the pubs and children inside were a definite no no. Mum would sit in the car with us while dad brought us out a soft drink and mum would have a sarsaparilla shandy.

The historical walk was so special for me as it brought back many memories of the little township that I knew so well and loved for its friendliness. One thing though it reminded me of the many things that I had forgotten or had gone by the board with what is said to be progress, the sale yards, the rail motor that ran from Ipswich through Lowood and Esk to Toogoolawah and Kilcoy. What fun we had as we rattled along. Not so many new buildings but lots of changes in the uses of the old buildings. So far they have escaped the demolition contractors. The town has not lost any of its charm and friendliness. The showgrounds are still the hub and the centre of the community. I hope we will have the opportunity to visit again.

There are not too many venues that we go to that we can walk from our campsites to the pub and all the other historical features that Wayne led us to with the help of our trusty numbered map.

Thank you Wayne, the tour guide on this occasion, but where was your umbrella (walking stick) to point with and our flag to follow so we wouldn't get separated from the group? Well done.

Arlene

Thanks Arlene.

**TRUE TO ITS WORD.**

A friend was told the roof of her camper should be painted with a product called Thermoshield topped with Clear Glaze.

The paint was ordered, paid for & duly arrived.

On vehicle inspection other work was required. (Paint was not required.) The paint was sent back via Australia Post. Cheaper than a carrier. With a full refund being received by return.

This product is advertise in The CMCA Wanderer with a discount to Caravan Clubs & members.

This is worthy of note as so often consumables are non returnable. Thanks Jenny.

WHAT! YOU DON’T KNOW ABOUT THIS IS?

Its held every two years This year 1 & 2nd Oct at Millmerran.

The year we went they burnt 20 tons of fire wood & had some 1100 odd units in the grounds. Lots, but it was good.!

Hema Maps released 8 survival rules for travel (many deserts roads.) I found them worthy of note!

1. Carry plenty of water/food/fuel about a weeks supply.  2. Avoid travel during or just after wet weather as dirt roads can become impassable for weeks.  3. Make sure you vehicle is in top mechanical condition & carry a good tool kit.  4. Don’t drive at dawn/dusk or night as stock/wildlife most active.  5. Cover up plus hat & sunscreen.  6. Event of breakdown stay with your vehicle. (Its larger target to see & gives shade.)  7. Do a first aid course/have a first aid kit, learn how to contact the RFDS/police using UHF, start a fire.  8. Let some one know where you are going.

Do you know about service sing your Fire Extinguisher/ do you know where it is / do you know how to use it / what fires its OK to use it on? Lets arrange for the people who know to come & show us. Ask you committee.
